Ergo

Ergonomic revolution

The Ergo model was developed for indoors use to work as stand up kiosk.

This model can be produced with or without de removable seat.

This model can be manufactured in stainless steel or painted steel (available in all RAL colors) using steel plate of 1,5mm to 2,5mm which ensures the stability and rigidity of the all structure.

The Ergo is normally equipped with a tactile monitor and can be delivered with a anti vandalic keyboard with trackball, card reader, webcam, coin acceptor, tickets printer, handset phone and other peripherals. This model can be equipped with a anti vandalic monitor.

For the union between the tactile monitor area and the PC area (possible printer area also) are used two polished tubes of 40x40x1,5 mm.

The peace that holds the monitor can be moved through a mecanic process to several positions in height, allowing the use of the kiosk by people standing ,wheel chair people and/or by children.

The Ergo Model is normally equipped with a Atom CPU with a 160 GB hard drive, 1 Gb Ram Memory, a 128Mb graphic card and a 10/100 mb ethernet, Windows 7 Starter.
